1992-1993 Renovation

Library opens after year-long renovation

by Matt Gwyther
staff writer

After nearly a year of remodeling, CEU's library is open and ready to serve the students and faculty. It had to be moved to the Old Gym last winter quarter because of structural difficulties with the floor. According to Robert Dolan, library director, while there has been two previous attempts to fix this problem this was by far the most inclusive. "This floor is not resting on the ground, it is resting 40 columns plus 6 of the original columns." These range anywhere from 20-40 feet deep.

The library renovation includes more than just the floor. Within the month, twelve word processing computers will be on-line. This compares to just three before the project. Three new 486 reference computer should be up and running around the same time. These will allow student look up information by subject or key words.

One of the most exciting new features of the

new library is a Dindex card catalog system.

Dolan sees the day when "a student can look up a book at the dorms and not have to trek to the library on a cold winter night." This system should be on-line inside the library by January.

According to Dolan, the project is running 12 percent over budget. "They thought they would have to drill to an average of 28 feet but they average 35 feet and the deeper you drill the more expensive it gets." He also says, "the budget was set several years ago before the whole idea of an electronic library came about, the fibre optic cable and juncture boxes were not anticipated, and that's pretty much why we're over."

The library is open for normal hours while the final touches are put on. These are Monday-Thursday from 8 a.m. - 10 p.m.; Friday from 8 a.m. - 5 p.m.; Saturday from 11 a.m. - 4 p.m.; Sunday from 5 p.m. - 10 p.m. Dolan anticipates the project to be totally finished by the time students come back in January.
